A. Deliverable Details	
Document Reference #:	D39 – D6.6
Title:	Best Practice Database
Version Number:	02
Preparation Date:	March , 2019
Delivery Date:	November, 2019
Author(s):	CSA – CENTRO SERVIZI AZIENDALE
Contributors:	All partners
Work Package	6 – DISSEMINATION, EXPLOITATION AND CAPITALIZATION OF BIM QUALIFICATION MODEL
Type of deliverable	Document/Report
Format	
Dissemination Level:	Public

B. Short Description	
<p>Task 6.4 Sum up of best practices tested during project (Lead Partner CSA) The good practices developed in the different countries will be gathered in a data base (link) for "recommended" practices for the different targets during the different building phases life.</p> <p>Measure: Best Practices</p> <p>Activity Best Practices Database will be organized in different sections to easily understand and use them. Best Practices will be organized according to the following situations: partnership management, training activities planning [procedures for the identification of requirements / elaboration of training contents / organization of training sessions], standardization processes, communication strategy, dissemination and exploitation strategy. The database will be accessible from the month 23 and will be promoted during all the public events.</p> <p>Target users</p> <ul style="list-style-type: none"> • General public, decision makers and opinion formers; <p><i>How the measure supports the achieved results?</i> <i>Best Practices will disseminate:</i></p> <ul style="list-style-type: none"> – Identification of Requirements – Development of BIM Qualification Models – Standardization of BIM Training & BIM Qualification and Certification Schemes – Validation of BIM Qualification Models <p>Database of lessons learned during BIM Qualification Model implementation for the different targets will be organized as follow:</p>
